

Join P.I.E. and Make a difference for your child Parents/Partners In Education

Studies show that when parents are involved in their children's education, they do better in school. One way you can become involved is by attending the Academy of Bioscience P.I.E. meetings.

2nd Thursday of each month from 6:30-8:30pm

Yes, P.I.E. does plan and organize fundraising activities for the school but that is only ONE of the many areas on which the parent group focuses. The group also:

- Discusses emerging issues at the school
- Takes input to the school board
- Hears monthly updates and reports from ABS director Mari Bergersen
- Ask questions of and have dialogue with Mari Bergersen about current school issues
- Hears monthly updates from the school board
- Supports the teaching staff in a variety of ways
- Plans and supports student socials and events
- Provides opportunities for parents to raise concerns and ask questions
- Works on improving communications between the school and parents

ABS needs volunteers for the following groups:

1. *Positive Behavior Intervention Support*
2. *Teacher/Principle Advisor Team*
3. *Monthly formative data meetings (during the day)*
4. *Community Partnership Opportunities*
5. *Classroom support and lunch room help*

Become involved for your child's sake

Please print and return to school or email your information to PIE chairperson Cathy Scoville at scoville1@msn.com.

Yes, I want to be involved! Please add me to the PIE email list.

My name: _____

My email address: _____

I would like PIE to call me. My phone number is: _____
